

Dear GEOG 101 students

Thank you, Samantha, for setting up the GEOG 101 Chat for the 125 students in this section. This format is a good way for students to learn off of each other. So, ask questions about content, about ways of tackling a question or assignment or about other academic issues.

Keep gripping to a minimum. It diverts the attention of others from focusing on the course material.

If there is an issue with a required assignment or extra credit work, contact me directly. This includes the posted deadlines and late penalties.

I will be monitoring the Chat to make sure it is focused on class work. Hunter and CUNY rules about harassment and academic dishonesty apply. So, don't do it!

Be Well. Wear a Face-Covering. Social Distance. Wash Your Hands. Protect Family and Friends.
