**Goals/objective and outcomes:**

Our earth is an integrated system of natural environments, built environments, and social and cultural environments. Geographers study all of these various environments in each of the specialty areas of geography. This semester we will be examining these environments and their interactions with each other through this introductory geography course. GEOG 10100 fulfills the Hunter Common Core Individual and Society (Social Science) requirement.

By the end of this course, you should have a better understanding of the complex and dynamic interrelations between and within human and non-human systems on earth. These systems include climate, landforms, ecosystems, cultures, population, economics, food, cities, politics, and more.

**Learning Outcomes:**

Upon completion of this course students will:

- Learn a broad foundational knowledge of the major content areas of geography, and the prerequisite knowledge to take more advanced geography courses;
- Understand the global patterns of natural resources, population, economy, and culture, as well as contemporary political, urban, and social processes;
- Will learn how to read and interpret maps and become familiar with the role of geospatial technologies in shaping contemporary geographic knowledge;
- Will become familiar with different explanations for today's world problems, inequalities, and power relations;
- Will develop a sense of geography as an academic discipline and an applied field that provides students with important analytical and professional skills;
- Understand the "tools" with which we make informed observations about the built and natural environments around us;
- Experience wrestling with some of the key geographic environmental and social justice issues facing our world today

### Attendance and Grading Policies:

- There is a direct correlation between good grades and good attendance. Come to class prepared, read the chapter, take notes, study for your exams and you'll be successful. Attendance is taken in every class meeting.
- I do not give incompletes (**IN**) except under the most extraordinary, and documented, circumstances.
- The only students who will be eligible for Cr/NC at the end of the semester are those who have completed all of the course requirements including all quizzes/exams **AND** the final exam.
- If you miss an exam, you must (1) contact me within 48 hours of the missed exam, (2) present acceptable documentary evidence for your absence, and (3) arrange a make-up exam at a mutually convenient date and time. A make-up exam covers the same material as the regular exam but will not be the same exam given as scheduled.
- If you fail to take the final quiz/exam, you have the same 48 hours in which to contact me about a make-up exam and provide me with the appropriate documentation supporting your absence. If I don't hear

from you within that time period, I will award you an exam grade of zero (0) and average that zero into your semester grade.

Class Participation	5% of your grade
Exam 1	30% of your total grade
Exam 2	25% of your total grade
Final Exam	40% of your total grade
