

GEOG 251: Geography of the United States and Canada

Items for Map Question on Mid-Term and Final Examinations

A portion of both the mid-term and final examinations will be devoted to map questions. For the mid-term exam you will be responsible for knowing the locations of the states of the United States and their principal cities, as listed below. For the final exam you will be responsible for knowing the locations of everything else. Outline maps of the United States and Canada will be provided to help you learn this material.

STATES, PROVINCES, AND CITIES

U.S. States and Cities

Alabama	Birmingham, Mobile, Tuscaloosa
Alaska	Anchorage, Fairbanks, Juneau
Arizona	Phoenix, Tucson
